

PARENT NOTICE

Update on community vaccination clinics for students eligible for Hepatitis B, Human Papillomavirus (HPV) and Meningococcal vaccination

October 13, 2021

Due to York Region Public Health's continued COVID-19 response, non-essential Public Health service such as school-based vaccination clinics for students continue to be on hold until further notice.

Starting in November, York Region Public Health will be providing community vaccination clinics for all eligible Grade 7 students who will miss their doses of vaccines usually offered in their school. In addition, all eligible grade 8 and 9 students who missed any doses of these vaccines due to school closures and the pandemic response will also be able to attend a community vaccination clinic to receive their Hepatitis B, Human Papillomavirus (HPV) and Meningococcal vaccines.

Vaccination Clinics	Clinic Information
Grade 7, 8 and 9 Student Community Vaccination Clinics	Starting in November 2021 - All eligible students will be able to receive any missed doses of Hepatitis B, HPV and Meningococcal vaccines More information will be sent home with students soon about vaccination appointment dates/times and locations.

On September 28, 2021, the National Advisory Committee on Immunizations (NACI) has announced that any vaccine may now be given at the same time, or before/following, a COVID-19 vaccine.
